Finishing Details

The **Premium Torso Color Panel** is a strategically placed reinforcement panel constructed from ultra-durable 1000 denier nylon.

Engineered to protect high-wear zones across the chest and shoulders, add your choice of color to create a drysuit, individually tailored to match the unique color palette of your existing dive gear.

Color Panels will be available for the Men's & Women's models of the following drysuits:

- X-Mission Evolution Tech Dry
- Expedition HD2 Tech Dry

Color Coordinating Tech/Cargo Pockets are included.
